

Legislative Update for May, 2006

by Nancy Porambo, President

- We are continuing to work with Rep. Gannon and his staff regarding the massage therapy licensure bill, HB, 1643.
- The bill is still in the Professional Licensure Committee. We have been told that some changes need to be made to the bill due to suggestions from members of the Committee.
- At present, the Board of Directors is working with the lobbyist to review concerns that exist in the current language.
- It also appears we will be heading into a second public hearing this summer.
- We need our members who support licensure to contact our Government Relations Chair, Scott Dugan, mgchnds1@aol.com and join us to move this bill forward!
